ABOUT ME

I am a results-oriented and adaptable individual with a passion for full stack web development. My key skills and strengths include teamwork, attention to detail, and a strong work ethic, all while actively pursuing opportunities for ongoing learning and career development.

WORK EXPERIENCE

Digital Mantras
Fullstack Developer
                                                                                    April 2024 - Dec 2024

Key focus: *ReactJS, Tailwind CSS, NextJS, Shopify, Fastify, Express JS*
- Implemented and integrated frontend authentication APIs, ensuring secure user authentication
- Developed an OTP-based authentication API using Django.
- Built a comprehensive CRUD API with Fastify and Express JS that organizes a company's information along with the product assigned to them, enabling efficient data management and manipulation.
- Contributed to frontend development for Shopify using Hydrogen, integrating GraphQL APIs to enhance e-commerce functionality and improve user engagement.

Cyberlink Pvt. Ltd.
Frontend Developer
                                                                                    Oct 2022 - April 2024

Key focus: *ReactJS, Tailwind CSS, UIKit, Bootstrap, Figma*
- Designed and developed a diverse portfolio of websites, including those for educational institutions, travel agencies, and corporate clients
- Created detailed website designs in Figma, collaborating with clients to ensure the final product met user needs and business objectives.
- Successfully integrated multiple APIs into the frontend using Tanstack Query, ensuring seamless data flow and enhanced user interactions.

EDUCATION

Bachelor of Science in Computer Science and Information Technology
Prime College
                                                                                    2019 - 2024
                                                                                    Nayabazar, Kathmandu
